DETAILED ACTION

Allowable Subject Matter

The indicated allowability of claims 20 and 21 is withdrawn in view of further review of the reference(s) to Berger (US 5117567). The inconvenience to applicant is regretted. Rejections based on the reference(s) follow.

Claims 1-19 and 22-33 are allowed.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20 and 21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Berger (US 5117567).

Berger (figures 1, 14, 26) teaches a closure system for footwear having an upper, with a lateral side and a medial side, the closure system comprising: at least a first lace guide 4 attached to the lateral side of the upper; at least a second lace guide 3 attached to the medial side of the upper; each of the first and second lace guides comprising a lace pathway; a lace 11 slideably extending along the lace pathway of each of the first and second lace guides; and a tightening reel 12 on the footwear, for retracting the lace, thereby advancing the first lace guide towards the second lace guide a closing distance to tighten the footwear until the lace guides bottom out in a position in which the first lace guide cannot be further advanced toward the second lace guide, wherein the closing distance is selectively variable. As to claim 21, lace guides are tubes.
